January 1, 1908.

Dear Brother Daniells:-

I have received letters from Bro. C. C. Crisler from which I understand that Bro. White and he are quite anxious that I should attend the Pacific Union Conference and spend a little time with them, and he intimates that this would be quite pleasing to Sister White. Furthermore, he thinks that Bro. Waskell proposes to interview Sister White in regard to "the daily", and he feels quite anxious about the handling of that whole matter.

Now I thought that you and Bro. White were together and you could talk over this question and advise me what it is best to do. I am far from anxious to go to California, and have much which I would like to do here, but would like to do that which will be best for the general interest of our work. Will you not let me hear from you at once about it?

It is quiet here and we are trying to attend to the many demands upon us. I suppose the others have written you about affairs in general and so I need not repeat.

I hope you have had a prosperous trip thus far.

Awaiting your early reply,

With best wishes,

Yours faithfully,

*W. H. Prescott*

*Happy New Year!*
